## About UBA

UBA (Unnat Bharat Abhiyan) is a flagship national program of a ministry of education, Government of India that envisions a transformational change in rural development processes by leveraging knowledge institution to help build the architecture of an inclusive India. The national coordinating institute for UBA is IIT Delhi which is implementing the program nationwide through a structured network of a large number of nodal participating institutions and regional coordinating institutions.

### ABOUT THE INSTITUTION

Maratha Vidya Prasarak Samaj was established by Karmaveer Ramesh Thakur and his supporters in 1914 with a motto "Bahujan Hita, Bahujan Sukh". This means "Welfare and Happiness of the Masses". The primary aim of the founders was to open the vistas of education to the deprived sections of the society. They believed that education will become the fulcrum of social change and uplift. Owing to the vision and missionary zeal of these connoisseurs of social movement, within decades the institute became the torchbearer of the largest number of primary and secondary schools, conventional and professional colleges and management institutes including the only medical college in the district. At present the institute is imparting quality education to more than 213598 students with the help of 485 branches and 9269 employees. Yashwantrao Chavan Maharashtra Open University Nashik has also felicitated the institution with "Dr. Panjabrao Deshmukh Award".

### About the College

The college was established against heavy odds, in June 1953 with a vision to cater to the educational needs of youth of the industrial area of Nashik City. The college has received the 'Best College Award' from S. P. Pune University as well as 'Copy Free Centre Award' from Yashwantrao Chavan Open University, Nashik. It has been reaccredited with 'A' Grade in the Third cycle by NAAC Bangalore with 3.20 CGPA. The year 2017-18 was celebrated as Silver Jubilee Year of the college. The college offers 17 Under graduate programmes and 9 Postgraduate programmes. Apart from the conventional courses the college has established YCMOU centre that offers degree courses as well as Yoga Teacher Course through distance mode. College offers many certificate, Diploma courses and Vocational degree in Yoga, Food Processing Technology and Electrical Appliances Maintenance and repairing.

### Webinar overview

India has around 600,000 villages with around 64% of its 1.3 billion people living in them. It is absurd to imagine growth without the country-side growing as fast as India's towns and cities. This nation has one of the largest pools of unskilled labour waiting to be trained and utilized. In the absence of proper training, awareness and motivation, it is commonplace for the rural unemployed youth to adopt alternative means of livelihood, many of which are shunned by civil laws.

Creation of jobs in massive number and ensuring higher productivity have been subjects of huge concern, especially in rural areas. A large portion of Indian economy operates in the informal sector with subsistence level of earnings and poor working conditions. To ensure employment generation at a rising levels of productivity, skill development of entrepreneurs and workers engaged therein will be crucial. The Webinar has been designed to empower the rural informal entrepreneurs to upgrade their knowledge and approach to not only start a new sustainable entrepreneurial venture and/or scale up the existing ones, in order to leverage the local employment opportunities for the rural youth, women and marginalized communities. The Webinar will facilitate detail understanding on the informal enterprise sector and its various issues such as skill, technology, marketing, finance and so on. It will also improve our understanding on the role of formal institutions in supporting the informal enterprises to transcend to formal sector and expand their scale of operation and local employment. After the Webinar, the participants will be able to guide informal rural entrepreneurs to reap benefits from the formal institutions and grow their business.

A large portion of Indian economy operates in the informal sector with subsistence level of earnings and poor working conditions. Even though rural informal sector has been providing employment opportunities, the sector is suffering from low level of technology, limited access to inputs and credits, and an unfavourable market environment. This webinar will also help in understanding various government schemes and policies towards skill development and employment generation in rural areas.

### Key objectives of the Webinar :

- To familiarise the constraints faced by rural informal sector;
- To develop strategies to generate employment opportunities in the informal sector;
